Details of the pre-application advice received

Site visit and presentation of a video proving a vehicle can enter and leave the site in a forward direction whilst there is another vehicle on site
-see traffic report .

For advice received see accompanying report from WC Highways Officer

Hi Ian

Further to your request to review the highways response to P/2022/0018 I advise as follows:

The last highway response was an email referring to the previous highways response to application P/2020/0638. There was no reference made to the submitted Transport Assessment that presented the following arguments:-

- a. There is an existing access to a lock up that is used for storage
- b. It can generate a minimum number of between 4 & 6 movements daily, a trip rate accepted nearby for a housing development at Fron Las P/2009/0794
- c. This is a very sustainable location as identified in WCBCs own LDP documents

I accept your argument that since this refusal, the speed limit locally has been reduced to 20mph. A 25m visibility splay is available in both directions, which was further improved since the gate post has been removed. I cannot deny that the existing storage building has an existing access with existing rights to reverse onto High Street, which I accept is similar to 57, 59 and 65 High Street just 40m from the site in that they all have driveways where vehicles reverse directly on to the highway.

I understand you have a video demonstrating that a standard vehicle can turn within the site and leave in a forward gear whilst a second vehicle is parked on site. Can you please forward this to me?

Summary

As a consequence of the now reduced speed limit, visibility splays are now compliant with Welsh Government recommendations

There is an existing use that demonstrates vehicles can reverse out and the proposal would not make the situation worse.

I would therefore advise that should a new planning application be submitted that it would be unreasonable to object to the proposal on highway grounds. I would imagine there to be a high probability of a reversal of the decision on appeal if we did object.

Best Regards

Doug
